## Education

- 2014 – present **AGH University of Science and Technology**, Kraków, Poland.  
Computer Science at Faculty of Computer Science, Electronics and Telecommunications  
Some of notable courses:
- Algorithms and data structures
  - Object-oriented programming, databases, computer networks
  - Introduction to UNIX, Scala and Erlang basics courses
- 2011 – 2014 **The August Witkowski 5th High School**, Kraków, Poland.  
Class with extended Mathematics and Physics with additional Algorithmic classes held by Jagiellonian University

## Experience

- Oct. 2016 – Mar. 2017 **Software Developer**, AVSystem, Kraków, Poland.  
Creating new features and fixing bugs in the Unified Device Management Platform, AVSystem's flagship product, which is a highly scalable and flexible provisioning, management and monitoring platform (Next Generation TR-069 ACS Server).  
Technologies: Java 8, Scala, Vaadin, SCSS, Mercurial, Jira, Scrum methodology
- July 2016 – Sept. 2016 **Java Developer Intern**, AVSystem, Kraków, Poland.  
Responsibilities similar to above.

## Activities

- 2014 – present **Festival Coordinator**, *Academic IT Festival*, Kraków, Poland.  
Academic IT Festival is one of the biggest three-day international conference organized since 2005 by students for students in Europe. The conference annually hosts distinguished and well-known guests from the IT environment. I am in charge of writing formal applications for endowment and plenty of agreements. Team management and collaborating with other organizers also belong to my responsibilities.
- 2016 – 2017 **Vice President**, *BIT Scientific Group*, Kraków, Poland.  
BIT is the scientific group supporting students and enabling them to develop themselves in various domains in computer science. The group has about 200 students, we work now in 8 sections. I'm in charge of representing the group at official events, contacting people from inside as well as outside the academia. I also organize workflow in our students' association.
- 2014 – 2016 **Member**, *BIT Scientific Group*, Kraków, Poland.  
Achievements and responsibilities:
- Attending algorithmic and AI classes
  - Participation in additional classes about Object-Oriented Programming in Java
